PROFESSIONAL SUMMARY

Data-driven Business Analytics professional and MBA candidate with a track record of delivering over $50M in value through advanced data analysis, team leadership, and C-level stakeholder management. Combines deep technical fluency (Python, SQL, Power BI, Tableau) with core business strategy to optimize financial performance and operational workflows.

EDUCATION

Texas Woman's University	MBA - Business Analytics (**GPA**: 3.9)	Expected Dec 2026
Coding Dojo	Software Development Certificate	May 2024 – Aug 2024
The University of Texas at Austin	BA - Economics	Aug 2015 – Jun 2019
	Business Foundations Program Certificate	

EXPERIENCE

Zuraj, LLC - Property Management Advisor (Consulting); Houston, TX — Aug 2023 – Present

- Perform financial analyses for a property portfolio to optimize net operating income and ensure regulatory compliance
- Designed 5+ Power BI/Excel dashboards to track KPIs, including revenue streams, operating expenses, and yield optimization
- Direct the tenant lifecycle, successfully leading and navigating lease negotiations, renewals, and dispute resolutions
- Executed advanced technical upskilling (Coding Dojo Certificate) and MBA in Business Analytics concurrently with client work

alliantgroup, LP - Implementation Consultant; Houston, TX — Jun 2022 – Jun 2023

- Managed a team of 5–6 data analysts, establishing data integrity controls and standardizing analytical workflows for consistency
- Delivered over $50M in qualified tax credits to clients by executing complex technical data analyses under strict deadlines
- Analyzed client financial and operational datasets using advanced Excel models to evaluate tax incentive eligibility routes
- Maintained relationships with 150+ C-level executives and CPA partner firms, providing status reporting and advisory support

Insite360 FuelQuest - Alarm Management Agent; Houston, TX — Jan 2020 – Oct 2020

- Prevented losses exceeding $100,000 per cleared incident by performing real-time risk analyses on gas station alarm systems
- Utilized the proprietary inGauge system to diagnose, troubleshoot, and reconfigure system designs based on client requirements
- Fostered cross-functional communication with internal teams, third-party services, and clients to streamline incident response times

PROJECTS & ACTIVITIES

IBM HR Attrition Analysis - Power BI — Sep 2026

- Built an interactive Power BI dashboard examining Kaggle's IBM HR Analytics dataset to evaluate employee turnover risk factors
- Modeled attrition cross-sections across departmental breakdown, tenure, compensation levels, and employee satisfaction scores
- Identified high-risk profiles within Sales Dept. tied to low job satisfaction and work-life balance, proposing retention interventions

Superstore Sales & Margin Analysis - Excel — May 2026

- Engineered an Excel sales dashboard incorporating dynamic slicers to evaluate total revenue, profit margins, and regional volume
- Evaluated quarterly trends across product subcategories, uncovering loss-leading product lines and underperforming territories

BRANDPRO Marketing Strategy Simulation - Team Lead — Sep 2025 – Oct 2025

- Led a 3-person team in a market simulation competing against peer firms to maximize firm equity and market share
- Applied dynamic pricing strategy and targeted marketing expenditure, achieving the class's highest final Share Price Index (SPI)
